SUMMARY REPORT

ADC-2005: HIV AND ITS TREATMENT PROTOCOLS

This program is planned for offering potential guidance for the development and implementation of prevention strategies. Population-based programs designed to change social norms are also designed in order to increase open communication about sexual activities. HIV/AIDS programs which make the general population aware to combat stigma and discrimination. Populations that transmit the virus from high-risk to low-risk groups. Overall risk factors involved in treating the patients in clinical scenarios and the prevention protocols to be followed. Resource person: Dr. Ali . The course aims at increasing the student knowledge about HIV/AIDS- signs, symptoms and clinical features, prevention protocols, clinical management of the patients and understanding the associated oral lesions and its treatment. Student will learn the identification of oral lesions associated with this condition. Understand the precautionary measurements required. Will be able to evaluate the signs, symptoms and plan the treatment accordingly.
