REPORT OF THE EVENT

Date: 09-08-2018

COMPUTERS IN DENTISTRY:

Computers play a significant role in dentistry, revolutionizing various aspects of dental practice, education, research, and patient care. To utilize practice management software to streamline administrative tasks such as appointment scheduling, billing, insurance claims processing, and inventory management. These software solutions help improve efficiency, accuracy, and patient communication while reducing paperwork and administrative overhead.

COURSE OBJECTIVES:

General objective:

To allow for remote consultations, diagnosis, and treatment planning between dentists and patients.

Specific objectives:

- For dental education and training programs utilize computer-based simulations and virtual reality (VR) technology to provide students with hands-on experience in dental procedures, treatment planning, and patient interactions. These technologies offer a safe and immersive learning environment for aspiring dentists.
- To utilize computer-based multimedia presentations, educational videos, and interactive tools to educate patients about oral hygiene, treatment options, and preventive care. These resources enhance patient understanding, engagement, and compliance with dental recommendations.

Outcome:

This Course makes the students to learn how to create, Edit, and print documents and also useful to work in any fields especially in Data, Finance, Marketing sectors.
