REPORT OF THE EVENT

Date: 11-11-2022

LEARNING MANAGEMENT SYSTEM:

A Learning Management System (LMS) is a software application or platform designed to facilitate the management, delivery, and tracking of educational courses, training programs, or learning content. LMS platforms are commonly used in educational institutions, corporate training settings, and other organizations to streamline the administration and delivery of learning materials.

COURSE OBJECTIVES:

General objective: to provide a comprehensive platform for managing, delivering, and tracking learning experiences, courses, and educational content

Specific objectives:

- Offering a centralized repository for storing and organizing learning materials, including course content, lectures, presentations, videos, documents, and assessments.
- Ensuring that learning materials and resources are easily accessible to learners anytime, anywhere, using various devices such as computers, tablets, and smartphones.
- Providing tools for creating, administering, and grading assessments, as well as offering timely feedback to learners to monitor progress, evaluate performance, and support continuous improvement.

Outcome:

This Programme creates the students the world of education, corporate training, offering a centralized, flexible and efficient way to manage, deliver and track learning content.
