**REPORT OF THE EVENT**

Date: 25-11-2022

**CERVICAL CANCER AWARENESS PROGRAMME:**

Cervical cancer is a type of cancer that develops in the cells of the cervix, which is the lower part of the uterus that connects to the vagina. Most cervical cancers are caused by the human papillomavirus (HPV), a common sexually transmitted infection. However, not all HPV infections lead to cervical cancer, as the immune system can often clear the virus before it causes any problems.

**COURSE OBJECTIVES:**

General objective:

To reduce the incidence, morbidity, and mortality associated with cervical cancer through education, early detection, prevention, and access to appropriate healthcare services.

Specific objectives:

- Educate individuals about the risk factors, symptoms, and consequences of cervical cancer.
- Promote awareness of the importance of regular cervical cancer screenings, such as Pap tests (Pap smears) and HPV tests, among eligible individuals.
- Empower individuals to take control of their reproductive health by accessing cervical cancer screening, vaccination, and treatment services.

Outcome:

The Awareness Programme causes adequate knowledge and practice of Pap smear test and to promote preventive measures for cervical cancer and enhance the vaccination Programme for all the teenage girls.

**RESOURCE PERSON:** Dr. Swapna, Sr. Consultant and Head, Radiation oncologist, MRHC.

**VENUE:** Lecture gallery, MRMCW

**DATE:** 22<sup>nd</sup>, 23<sup>rd</sup> & 24<sup>th</sup> NOV 2022

**NUMBER OF PARTICIPANTS:** 110 students from III year BDS

**DURATION:** 15 hrs
