Report

The program "The Computer Era" was successfully conducted on 2nd June 2023 at Malla Reddy Dental College for Women. The event aimed to educate and enlighten 3rd and 4th BDS students on the significance and impact of computers in the modern era.

Objectives

General Objectives:

- To create awareness about the significance of computers in the modern era
- To educate students on the applications of computers in dentistry
- To inspire students to explore the potential of technology in their future careers

Specific Objectives:

- To understand the history and evolution of computers
- To learn about computer-aided design (CAD) and 3D printing in dentistry
- To gain hands-on experience with dental software and emerging technologies (AI, IoT, etc.)
- To develop skills in using technology to improve patient care and dental practice management

Resource person: Dr. B.Hari krishna, Assistant Professor, CSE, MREC

Date: 2nd June 2023

Venue: lecture hall 3

Participants: 84 (3rd and 4th BDS students)

Coordinator

Glimpse of the Event

A Capability Enhancement Programme on "Computer Era" was conducted for 3rd and 4th BDS students, with 84 students registering for the session. This informative programme introduced participants to the latest digital trends and technologies transforming the dental profession. Through engaging lectures and hands-on training, students learned to leverage software applications, digital radiography, and electronic records for enhanced patient care. By embracing technology, these future dentists can now stay ahead in the rapidly evolving dental landscape.

REPORT OF THE EVENT

16-09-2021

INTRODUCTION:

Computers play an integral role in daily life across various domains, revolutionizing how we work, communicate, learn, and interact with the world. They have become indispensable tools in modern life, empowering individuals, businesses, and societies to accomplish tasks, solve problems, and access information with unprecedented speed, efficiency, and convenience.

OBJECTIVES:

General objective: To enhance efficiency, convenience, and connectivity in various aspects of human activities, spanning work, communication, learning, entertainment, and more.

Specific objectives:

- Computers provide convenience by offering access to information, services, and entertainment anytime, anywhere.
- Computers aim to streamline tasks and processes, allowing individuals to accomplish tasks more quickly and with greater accuracy. They automate repetitive tasks, perform complex calculations, and provide tools and software that optimize workflows in various domains.

REPORT OF THE EVENT

09-07-2020

INTRODUCTION:

The computer and internet era, also known as the digital age or information age, refers to a period marked by the widespread adoption and integration of computers, digital technology, and the internet into various aspects of society. The computer and internet era began with the popularization of personal computers in the 1980s

General objective: the computer and internet era has ushered in unprecedented connectivity, innovation, and opportunities, fundamentally reshaping how individuals, businesses, and societies operate and interact in the modern world.

Specific objectives:

- With increased connectivity and reliance on digital technology comes the challenge of cybersecurity. Cyberattacks, data breaches, and privacy concerns have become prevalent issues, prompting the need for robust cybersecurity measures and regulations.
- the knowledge and skills needed to navigate the digital landscape, access educational and economic opportunities, and participate fully in the digital age.

REPORT OF THE EVENT

09-08-2018

INTRODUCTION:

Computers play a significant role in dentistry, revolutionizing various aspects of dental practice, education, research, and patient care. To utilize practice management software to streamline administrative tasks such as appointment scheduling, billing, insurance claims processing, and inventory management. These software solutions help improve efficiency, accuracy, and patient communication while reducing paperwork and administrative overhead.

General objective: to allow for remote consultations, diagnosis, and treatment planning between dentists and patients.

Specific objectives:

- For dental education and training programs utilize computer-based simulations and virtual reality (VR) technology to provide students with hands-on experience in dental procedures, treatment planning, and patient interactions. These technologies offer a safe and immersive learning environment for aspiring dentists.
- To utilize computer-based multimedia presentations, educational videos, and interactive tools to educate patients about oral hygiene, treatment options, and preventive care. These resources enhance patient understanding, engagement, and compliance with dental recommendations.

RESOURCE PERSON: Dr. Uday Bhaskar, Professor, Mechanical Engineering, Malla Reddy Engineering College

VENUE: Lecture Hall-3

DATE– 6 Aug 2018

NUMBER OF PARTICIPANTS: 62 students IV BDS
