POLICY FOR CURRICULUM FEEDBACK

1. Introduction

Assessing the efficacy of instruction relies heavily on the achievement of desired learning outcomes. A robust Feedback Mechanism is indispensable for evaluating whether the institution is delivering quality education. Consequently, the institution has instituted a policy to facilitate the availability of feedback forms for diverse stakeholders to assess academic performance.

2. Objectives and Scope

Facilitate the scrutiny and enhancement of student learning experiences by promptly gathering, analyzing, and disseminating feedback on teaching, learning, and assessment.

Empower students and stakeholders to actively contribute to the ongoing refinement of study programs through timely feedback collection.

3. Stakeholders

The feedback mechanism encompasses the following stakeholders:

Students

Alumni

Faculty

Professionals

Employers

4. Feedback Process

Feedback on the curriculum is solicited from various stakeholders annually in a structured format. The completed feedback forms undergo analysis and are subsequently submitted to the relevant authority for further review and action.
