DISASTER MANAGEMENT COMMITTEE

Roles :

1. Developing and implementing a comprehensive disaster management plan that outlines procedures for responding to various types of emergencies that may occur on campus.
2. Identifying potential hazards on campus and taking measures to mitigate them to prevent or reduce the impact of disasters
3. Providing education and training to the college community on disaster preparedness and response procedures
4. Establishing protocols for communication, evacuation, sheltering in place, and medical response in the event of a disaster.
5. Coordinating with local emergency response agencies to ensure a coordinated response during an emergency
6. Conducting regular drills to practice implementing the disaster management plan and identifying areas for improvement
7. Ensuring that all members of the college community are aware of the disaster management plan and their roles and responsibilities during an emergency
8. Establishing procedures for assessing the impact of a disaster on campus and developing strategies for recovery and restoration.

Responsibilities:

1. **Planning:** Developing and maintaining a comprehensive disaster management plan that outlines procedures for responding to various types of emergencies that may occur on campus.
2. **Mitigation:** Identifying potential hazards on campus and taking measures to mitigate them to prevent or reduce the impact of disasters
3. **Preparedness:** Providing education and training to the college community on disaster preparedness and response procedures
4. **Response:** Establishing protocols for communication, evacuation, sheltering in place, and medical response in the event of a disaster.
5. **Coordination:** Coordinating with local emergency response agencies to ensure a coordinated response during an emergency
