

ECO SYSTEM, INFECTION CONTROL, WASTE MANAGEMENT COMMITTEE

Roles:

- Ensure the waste management in campus is in accordance with all waste legislative requirements
- Minimize waste generation and facilitate repair, reuse and recycling of wastes in a cost effective manner
- Provide clearly defined roles and responsibilities to identify and co-ordinate activity of the waste management.
- Promote environmental consciousness in order encourage waste minimization, reuse and recycling.
- Invest into the expansion of recycling opportunities in the university campus
- Ensure safe handling and storage of waste in campus
- Provide appropriate training for teacher, resident, staff and students on waste management issues

Responsibilities:

1. Monitoring the day to day delivery of general waste and their recycling services
2. Operational monitoring of waste management systems
3. Periodically conducting respective waste Management Committee meetings
4. Ensuring that no hazardous waste is disposed of through the general or waste recycling streams
5. Nominating a responsible person within their department to coordinate waste disposal for any hazardous or laboratory wastes
6. Ensuring that the waste of office and residence is disposed off responsibly through proper waste disposal system
7. As per hazardous waste regulations it will be mandatory that concerned department cannot store hazardous waste for a period not extending 90 days and shall maintain a record of sale, transfer, storage, recycling and reprocessing of such wastes unless the concerned Pollution Control Board has extended the stipulated period
8. The waste could either be recycled/reused or disposed of in captive or common treatment, storage and disposed facilities available in the campus or incinerated
9. Animal house/bio-medical waste management and disposal will be governed by Bio-Medical Waste(Management and Handling) Rules, 1998,MoEF, Govt of India
10. Degradable and non-biodegradable will be segregated and treated according to their physical nature
