REPORT OF THE EVENT

23-09-2022

INTRODUCTION:

HOW TO OVERCOME STRESS

Stress is a natural human response that prompts us to address challenges and threats in our lives. Stress is how we react when we feel under pressure or threatened. It usually happens when we are in a situation that we don't feel we can manage or control. Everyone experiences *stress* to some degree.

COURSE OBJECTIVES:

General objective:

Improving to cope with difficult events that happen in life.

Specific objectives:

- Implementing a daily mindfulness practice, such as meditation or deep breathing exercises, for at least 10 minutes
- Practicing positive self-talk and reframing negative thoughts by consciously replacing them with more constructive and optimistic ones.

RESOURCE PERSON: Mr. H. G. Mahashringadasa, Director at ISKCON, Kukatpally

REPORT OF THE EVENT

11-02-2022

INTRODUCTION:

"NEET" typically refers to the National Eligibility cum Entrance Test, which is an entrance examination in India for students who wish to study undergraduate medical courses (MBBS) and dental courses (BDS) in government or private medical colleges and dental colleges in India. Given the competitive nature of the exam and the importance of securing a good score, NEET orientation programs are often organized to help students prepare effectively.

OBJECTIVES:

General objective: NEET orientation programs are designed to provide comprehensive guidance and support to aspiring dental students, equipping them with the knowledge, skills, and confidence needed to excel in the exam.

Specific objectives:

- Detailed discussions would be conducted on the syllabus of NEET, covering subjects like Physics, Chemistry, and Biology (Botany and Zoology). Emphasis would be placed on understanding the weightage of each topic, the type of questions asked, and the marking scheme.

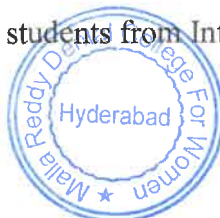

Practical advice would be given on how to approach the exam day, including strategies for managing time during the exam, dealing with stress, and maintaining focus

REPORT OF THE EVENT

18-06-2020

INTRODUCTION:

Managing stress is essential for maintaining overall well-being and productivity. Managing stress is a continuous process, and it's essential to find strategies that work best for you.

COURSE OBJECTIVES:

General objective:

Recognize the sources of stress in your life. These could be work-related, personal, or environmental factors.

Specific objectives:

- Prioritize self-care activities that bring you joy and relaxation. Whether it's taking a warm bath, reading a book, or spending time in nature, carving out time for self-care is crucial for managing stress.
- Incorporate relaxation techniques into your daily routine, such as deep breathing exercises, progressive muscle relaxation, meditation, or mindfulness practices.
- Learn to say no to additional commitments if you're feeling overwhelmed. Establish clear boundaries between work and personal life to prevent burnout.

REPORT OF THE EVENT

10-10-2020

INTRODUCTION:

Personality development refers to the continuous process of enhancing and refining one's attitudes, behaviors, beliefs, and qualities to achieve personal growth, self-improvement, and success in various aspects of life. It encompasses a range of traits, behaviors, and attitudes that contribute to an individual's character, social interactions, and overall success.

General objective: to enhance your self-awareness, interpersonal skills, resilience, and overall well-being, leading to personal fulfillment and success in various aspects of life.

Specific objectives:

- To Cultivate a growth mindset and embrace lifelong learning. Seek out opportunities for learning and self-improvement, whether through formal education, workshops, books, or online courses.
- To develop emotional intelligence by understanding and managing your own emotions, as well as empathizing with the feelings and perspectives of others. Emotional intelligence encompasses skills such as self-regulation, empathy, social awareness, and relationship management.

REPORT OF THE EVENT

06-10-2019

INTRODUCTION:

Photography plays a crucial role in dentistry, serving various purposes ranging from documentation to patient education and treatment planning. It is essential for accurate diagnosis, effective treatment planning, patient communication, and documentation. Advancements in digital photography and imaging technology have made it easier than ever for dentists

General objective: to capture high-quality images and integrate them into their practice workflow.

Specific objectives:

- To document the condition of a patient's oral cavity before, during, and after treatment. This documentation is invaluable for legal and insurance purposes, as well as for tracking progress over time.
- To dentists with a detailed view of the patient's oral structures, enabling them to plan treatments more effectively.

REPORT OF THE EVENT

08-02-2020

INTRODUCTION:

Training on good dental clinical practices is essential for dentists and dental professionals to ensure the delivery of high-quality dental care and patient safety. training should include protocols for sterilization, disinfection, and aseptic techniques to prevent the spread of infections in the dental setting. This includes proper hand hygiene, use of personal protective equipment (PPE), instrument sterilization, and management of biohazardous waste.

General objective: By providing comprehensive training on these areas, dental professionals can uphold good dental clinical practices, deliver quality care, and maintain high standards of professionalism and patient safety in their practice.

Specific objectives:

- To promote collaboration and communication with other healthcare professionals, specialists, and allied dental team members to ensure comprehensive patient care and optimal treatment outcomes. offering opportunities for career progression, specialization, and making a positive impact on oral health outcomes in the community.
- To emphasize ethical principles, professional conduct, and legal obligations governing dental practice. This includes maintaining patient confidentiality, respecting patient autonomy, avoiding conflicts of interest, and adhering to professional codes of conduct and regulatory requirements.

REPORT OF THE EVENT

04-03-2019

INTRODUCTION:

Dentistry offers diverse and rewarding career opportunities for individuals passionate about oral health care, education, research, and community service. Whether pursuing clinical practice, specialization, academia, public health, research, or entrepreneurial endeavors, dentists have the opportunity to make a positive impact on the oral health and well-being of individuals and communities.

General objective: to explore entrepreneurial opportunities by starting their own dental practices, dental clinics, or dental-related businesses. Entrepreneurial dentists may develop innovative dental products or services, invest in dental technology startups, or establish dental franchises or chains.

Specific objectives:

- To expertise in clinical practice, research, or dental technology may work as consultants for dental practices, insurance companies, dental product manufacturers, or healthcare consulting firms.
- To choose to specialize in various fields such as orthodontics, periodontics, endodontics, prosthodontics, oral and maxillofacial surgery, pediatric dentistry, and oral pathology.

RESOURCE PERSON: Ms. Preetika Bansal, General Dentist, Consultant in Abroad dental academy.

REPORT OF THE EVENT

01-04-2019

INTRODUCTION:

Session on Patient management in Dentistry

COURSE OBJECTIVES

General objective:

The objectives of patient management in dentistry include ensuring patient comfort, safety, and satisfaction throughout their treatment. This involves comprehensive assessment, effective communication, and personalized care plans tailored to individual needs.

Specific Objectives:

Additionally, it aims to maintain optimal oral health, prevent future dental issues, and educate patients on oral hygiene practices. Moreover, patient management focuses on fostering trust and confidence, promoting a positive dental experience, and facilitating long-term patient-provider relationships for ongoing care and support.

RESOURCE PERSON : Dr.P.Prashanth, Professor and Head in cons and Endodontics, S.D.M,Dharwad.
